Guess who people see first in the pasture. Palmetta Check! This cow is absolutely beautiful in person. She is the prettiest orange in the late summer and come spring she's turned blue. These are the twisty horns every breeder wants in their herd. She also has one of the prettiest udders we've seen. She raises big healthy calves and breeds right back.

Total Horn: 72.0000 on 07/29/2019
